

Avoiding Danger-REALTOR Safety Tips

Safety on the Road

Tip 1

When you're alone getting into your car, the first thing you should do is lock the doors. Be observant when approaching your car, looking underneath and in the back seat before entering.

Tip 2

Using a mobile phone while driving can cause an accident. For driving safety, purchase a hands-free phone kit for your vehicle. If you must use the phone while driving, this kit turns your mobile phone into a speaker phone. Never attempt to take notes while driving. Pull over and stop in a safe place first.

Tip 3

Keep roadside breakdown essentials in the trunk, including flares, a tire-inflation canister, basic hand tools, spare belts and hoses, water, a flashlight and a first-aid kit. Have your vehicle inspected regularly, keep it well maintained and learn how to change a flat tire.

Awareness.

The key to staying safe.
